Education

BS, Computer Science
Tufts University
Degree expected May 2020
GPA – 3.76/4.00
Dean's List: Fall '16, Spring & Fall '17, Spring & Fall '18, Spring '19
Coursework: Web Programming, Data Structures, Algorithms, Programming Languages, Game Design, Machine-Structure Programming, Object-Oriented Programming for GUIs, Discrete Mathematics, Introduction to Computer Security, Introduction to Human Factors

Experience

Cogo Labs, Cambridge, MA
Front End Engineer, Web Team
🕒 *June - August 2019*

- Built features in React and TypeScript for a v1.1 release of a company-wide internal tool used by 150 employees every week
- Translated high-priority user pain points identified in usability testing into actionable user stories
- Created UI components that fulfilled a mockup with team-wide code review

TUSC Marketing at Tufts University
Lead Graphic Designer
🕒 *May 2017 - present*

- Developed advertising and marketing plans for other sub-groups of TUSC (Tufts University Social Collective) for 100+ events for all 5000+ students
- Defined the visual brand of TUSC, setting guidelines for other graphic designers and social media managers
- Created eye-catching designs for infographics, T-shirts, event posters, and social media graphics
