kristenemoran

Profile

I'm passionate about **front end engineering** with a strong backend education and professional design experience. Formal education in **design principles** and **UI/UX** has strengthened my design instincts and allows me to build beautiful products from scratch.

Experience

Front End Engineer Intern, Web Team
📍 **Cogo Labs, Cambridge, MA**
🕐 *June - August 2019*

- Built features in React and TypeScript for a v1.1 release of a company-wide internal tool used by 150 employees every week
- Translated high-priority user pain points identified in usability testing into actionable user stories
- Collaborated across a team of designers and developers to create UI components that fulfill a mockup with team-wide code review

Lead Graphic Designer
📍 **TUSC Marketing at Tufts University**
🕐 *May 2017 - present*

- Collaborated constantly with other sub-groups of TUSC (Tufts University Social Collective) to create advertising and marketing plans for 100+ events for all 5000+ students
- Defined the visual brand of TUSC, setting guidelines for other graphic designers and social media managers
- Created eye-catching designs for infographics, T-shirts, event posters, and social media graphics

Relevant Coursework

Web Programming	**Programming Languages**
Data Structures	**Machine Structure & Assembly-Language Programming**
Algorithms	**Object-Oriented Programming for GUIs**
Discrete Mathematics	**Introduction to Human Factors**
